Key Drivers of Employee Attrition

Total Attrition and Attrition Rate % by OverTime

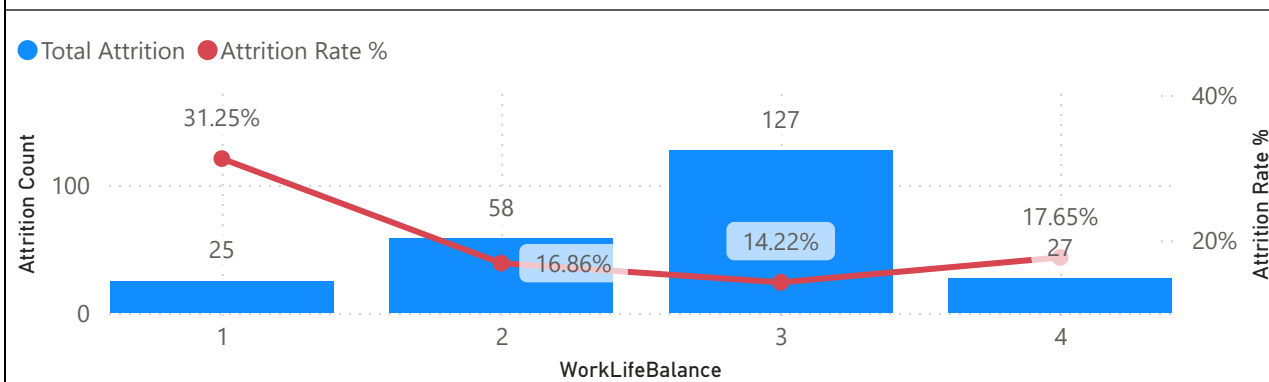

Employees working overtime are nearly 3x more likely to leave (30.5% vs 10.4%), making overtime the strongest single predictor of attrition in this dataset.

Total Attrition and Attrition Rate % by BusinessTravel

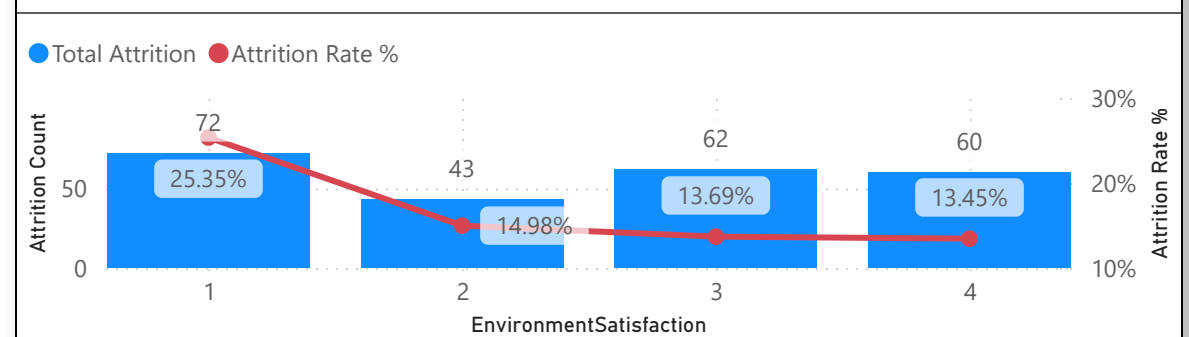

Employees who travel frequently leave at nearly 3x the rate of those who don't travel at all (24.9% vs 8.0%), suggesting travel demands are a meaningful attrition risk.

Total Attrition and Attrition Rate % by WorkLifeBalance

Employees with the lowest work-life balance score leave more than twice as often as those with the best score (31.25% vs 17.65%), confirming work-life balance as a key retention factor.

Total Attrition and Attrition Rate % by EnvironmentSatisfaction

Employees least satisfied with their work environment leave nearly twice as often as the most satisfied group (25.35% vs 13.45%), making environment satisfaction a clear driver of attrition.

Compensation, Promotion & Tenure Analysis

Sum of MonthlyIncome by Department

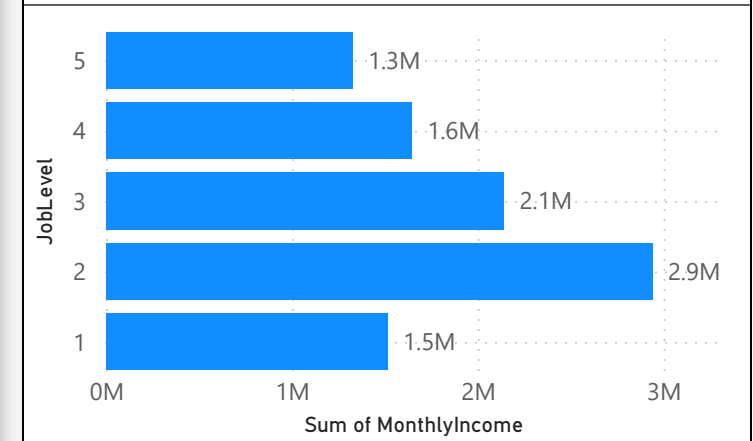

R&D earns the highest total income, but Sales and HR show the steepest attrition despite lower pay.

Sum of MonthlyIncome by JobRole

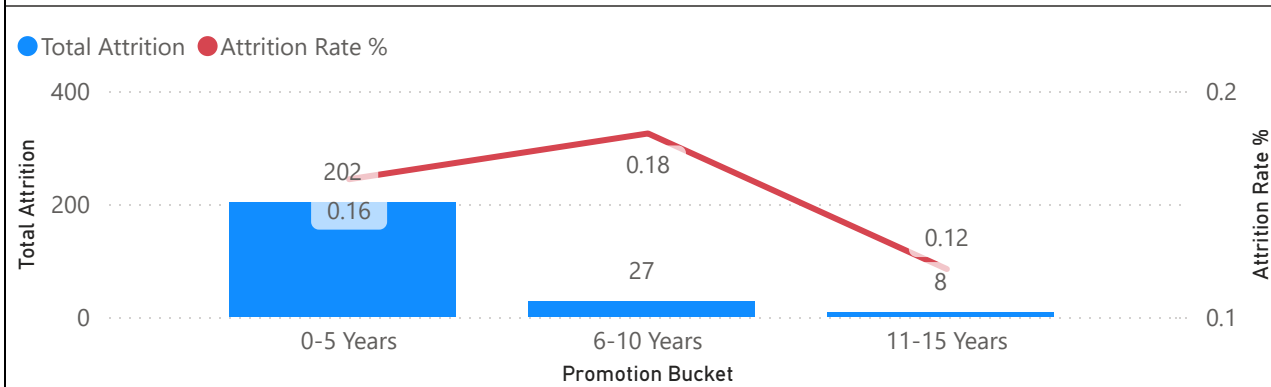

Sales Executives and Managers earn the most; Sales Representatives the least — a 6x income gap.

Sum of MonthlyIncome by JobLevel

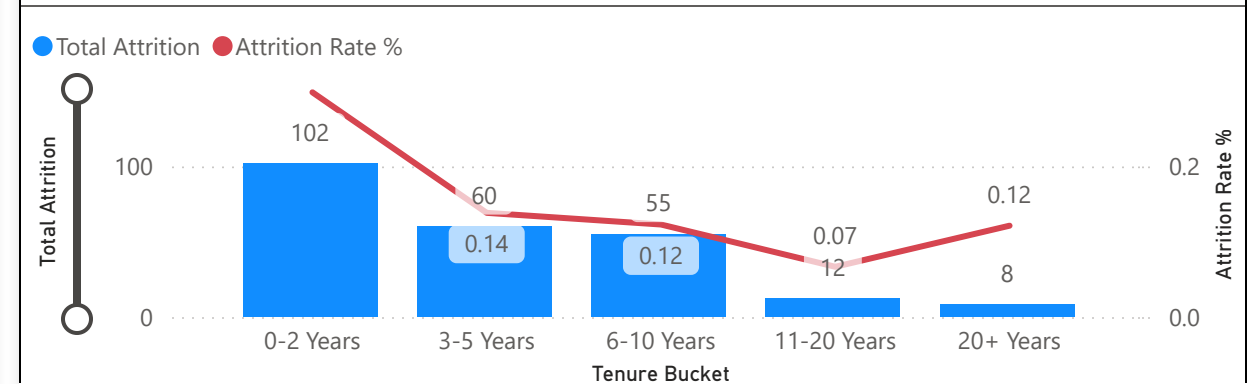

Income rises sharply with job level, nearly 3x higher at Level 5 than Level 1.

Total Attrition and Attrition Rate % by Promotion Bucket

Attrition stays fairly flat across promotion gaps, making this a weaker driver than tenure or overtime.

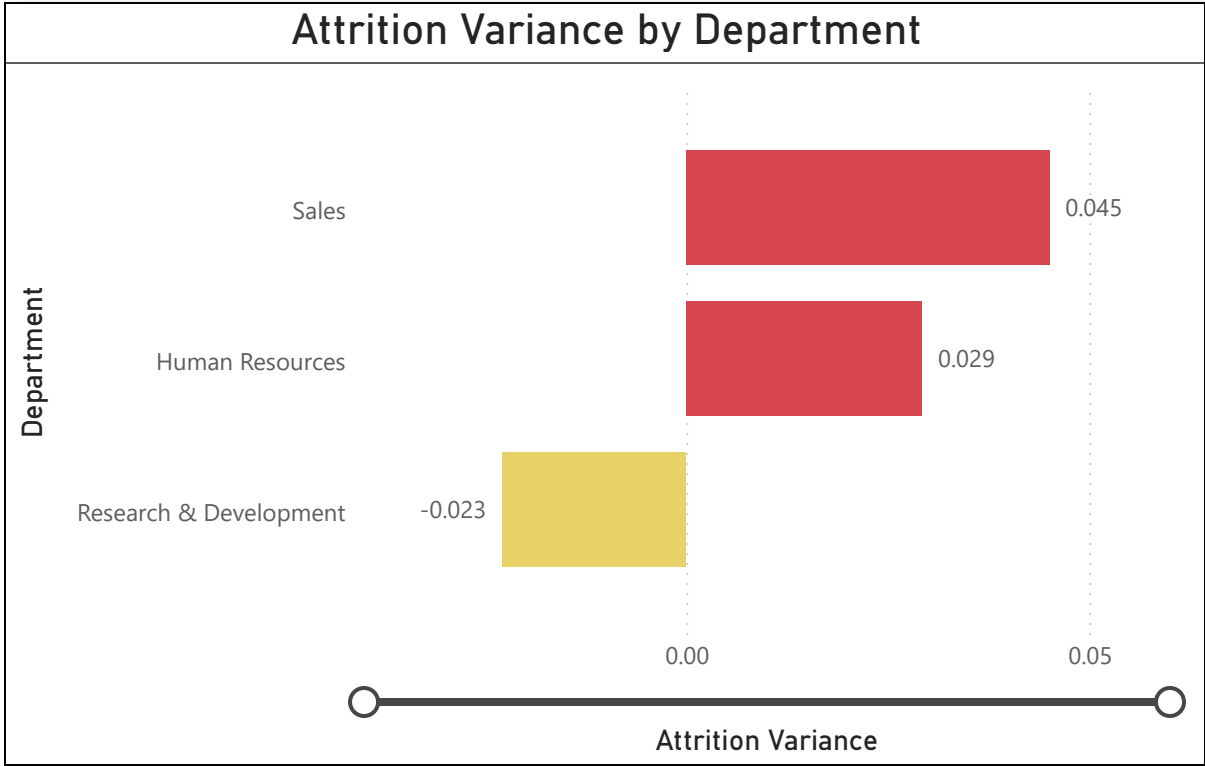

Total Attrition and Attrition Rate % by Tenure Bucket

Employees in their first 0-2 years leave at nearly 5x the rate of long-tenured staff (29.82% vs ~6.67%).

HR Attrition Analysis Dashboard

Salary Ranking & Department Variance

Sales attrition runs 4.5 points above the company average (20.6% vs 16.1%), while Research & Development sits 2.3 points below — making Sales the department most in need of retention attention.

JobRole	Average of MonthlyIncome	Salary Rank
Manager	17181.68	1
Research Director	16033.55	2
Healthcare Representative	7528.76	3
Manufacturing Director	7295.14	4
Sales Executive	6924.28	5
Human Resources	4235.75	6
Research Scientist	3239.97	7
Laboratory Technician	3237.17	8
Sales Representative	2626.00	9
Total	6502.93	6

Managers and Research Directors earn 2-6x more than entry-level roles like Sales Representatives and Laboratory Technicians, highlighting a steep pay hierarchy across job roles.
